

NHS Near Me Video Appointments

This practice offers NHS Near Me video appointments, powered by the Attend Anywhere system.

NHS Near Me Information

NHS Near Me is a video consulting service which allows patients to attend their appointment from the comfort of their own home or wherever is convenient, using their own computer, smartphone or tablet device.

To use this service you must have a booked video appointment with the practice. Your clinician or booking staff will be able to advise you whether a video appointment is suitable for you.

More information about NHS Near Me use in NHS Scotland and in NHS Grampian is available by clicking on the following links:

Attend my appointment or make a test call

If you are ready to attend your video appointment, or you want to make a test call before your appointment is due, click the **start video call** button below (please ensure you are using Google Chrome on a Windows or Android device, or Safari on Apple devices). If you make a test call this tests your device, connection, speaker and camera, it does not make a call.
